

Chiara, Gloria, Graziella e Domenico.

**Wine
artisans
since 1957**

A nourishment we take everyday
to get life, to look into the future,
by seeing more than what reality shows
us. A flow from which we let ourselves
be carried away to find what we don't know.

Where it all began.

Making wine is not just a job for us, it's our calling. We feel called upon to share what we have created, because together we have given a voice to our greatest passion. Our wines convey the full expression of the flavours of our land that reveal the life of a project carried out with love and dedication.

The wealth of the fruit.

Nature is our closest friend and we have always known that everything contained within a seed is extremely precious. The seeds that gave life to our vineyards, together with the seeds we have planted in our lives, have generated our reality. Every day we take care of this heritage so that it continues to offer us exclusive fruits.

A connection
between the soil
and the flavours
that defines
all the uniqueness
of a wine's character,
transmitting
the characteristics
of the land
to the bottle.

A mirror, that of the water and the earth surrounding it, which reflects all its peculiarities in our wines, each one unique and unrepeatable, containing all the characteristics of this land in a bottle. Wine is the exclusive expression of the specific flavours and aromas of a vine and of the land from which it feeds, of history and its tradition.

From the vineyard to the cellar.

The connection between land and vineyard is the first step to giving a wine its own character. Protecting the vineyard and the land on which it rests is our duty. If the bunches have everything they need to ripen on the plant, in the cellar they find the space to evolve their maximum personality, thanks to special processes and time.

The union of individual parts that creates something greater. Starting from this assumption, we have refined every step over the years to get closer and closer to the best result. The berry is our starting point, the attention to detail that makes the flavour of each of our wines unique.

Small details
in every sip.

Il Tralcetto

When our grandmother Anna picked up a gnarled stick among the pruning branches and brought it home, she couldn't have known that her son Italo would transform it into something much bigger, a mark of recognition identifying that which would become the winery's longest-running line and a symbol of the bond between our company and the land.

"Il Tralcetto", which means small branch in Italian, is tied to the neck of these bottles to represent the genuineness of our slow and careful work that calls for experience in every detail in order to give each bottle that small, but unmistakable, plus that has always made it unique.

TesiRare

We have studied the vine for years, acquiring knowledge that reveals itself more clearly every day and has shown us how to create things we couldn't have even imagined then. The TesiRare line arose naturally and by waiting, creating sincere wines that reveal the secrets of our land with every sip.

TesiRare is the overcoming of what we knew up to that moment, an answer to our endless questions.

IT IS THE MOMENT

MADRE®

From a historic vine, where our father Italo was born, which begins the story of Madre. An elegant grape that has revealed a new face in its simplicity and naturalness, rich in flavours and aromas. A glass full of an ancient, deep colour that makes us feel at home. A different path, which we have decided to take to obtain a wine outside the box and the rules.

Guarding, being able to listen and interpret, this is the meaning we want to give to our time. A pure feeling, with no filters in order to understand its essence. Sharing of a hug that smells of commitment, passion and love. If there's no sharing, there's no poetry, there's no love. Living an emotion, tasting a moment, facing difficulties, rejoicing about a simple gesture.

LIVELY LIGHTNESS

Prosecco

The sunny, breezy slopes of the hills that wind their way from Valdobbiadene to Conegliano, the natural birthplace of Prosecco, allow our finest grapes to ripen and become enriched with incomparable aromas in this fertile environment. Each bubble encloses all the magic of a unique meeting of emotions and flavours.

I Cru

Wines that reveal the bond with the land from which they come, recounting stories and emotions, a dialogue consisting of sensations. Each glass holds the heritage of our history, the typical features of our land and the passion that has always fuelled our work: wines that are ambassadors of the place and of our taste memory.

Ca' della scala

Flavourful and melodic notes that become music for the palate. These red wines sing, their stanzas entering the heart of those who have chosen them, a love that doesn't need words, settling inside us as if it were our new favourite song.

Enveloping, harmonious, spicy. - Dry, soft, harmonious. - Delicate, full, velvety.

A journey into our life.

Our cellar is our home and we welcome those who come to visit us with the awareness that great friendships can arise from a simple meeting. To enjoy a truly special experience, book your tasting.

COME TO VISIT US!

If you would like to taste our wines, come enjoy a tasting experience where you'll discover all the flavours of our land. Contact us and book your tasting.
